

30 mins

Sea search

Activity guide:

Equipment required:

- Print the 'Sea search' worksheet for all pupils
- Pencils or pens

To complete the sheet:

1. Each pupil spends time finding the words in the grid and marking them off.
2. To expand the lesson further, the list of species could be talked about and information about each one discussed.

Sea search

Can you find the seashore plants and animals listed in the word search grid below?

Shore crab

Whelk

Barnacle

Mussel

Cockle

Limpet

Eggcase

Hermit crab

Gutweed

Wrack

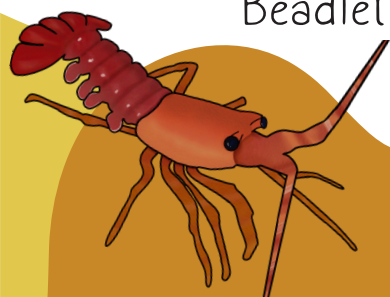

Starfish

Prawn

Beadlet anemone

Kelp

Butterfish

Gutweed is often found where fresh water runs down the beach.
